Points for Attention

1. You can't connect multiple Cameras to the computer or intelligent device at the same time, including the native device, Doing so may cause interruptions during the call.
2. It is required to connect the USB cable directly to the USB interface of the computer. Connecting it to an USB hub may cause operating issues.
3. Do not repair the device by yourself or else it may cause electric shock. Please contact your seller if there is any problem needing repair.
